Our Services > Coaching > Governance Leadership

It is our belief that good governance and exceptional leadership are closely related and should occur simultaneously. Experience has shown that governance and leadership really must go hand in hand for Boards and Executives to be successful. Our approach to Governance Leadership is to ensure that we not only deal with specific governance or leadership issues, but also focus on the inter-relationships between these elements.

The actions, decisions and processes of Boards of Directors are increasingly being placed under a microscope. Corporations are being challenging to maximize their effectiveness by clients, members, taxpayers, and funders.

HELEN J. WYTHER & Associates assists Board of Directors governing executives to recognize the inter-related principles and features of an effective Board. We provide coaching and mentoring support that will provide the opportunity for governing board members to identify key issues and solutions, which can be applied to numerous circumstances enhancing board performance.

HELEN J. WYTHER & Associates is able to provide coaching and mentoring services which meet your organizations unique needs in areas such as:

- CEO Selection, Support and Appraisal
